ACADEMIC BACKGROUND

Bachelor's Degree in Computer Engineering — Sep 2021 - Jun 2026

Universidad de Alcalá (Alcalá de Henares)

- Specialization in software development, system architecture, and networks .
- Focus on Clean Code practices, algorithmic problem-solving, and data processing.

Introduction to Cybersecurity Course — May 2026 - Nov 2026

Escuela de empresa (Madrid)

- Intensive training in ethical hacking, network security, cryptography, cyberattack prevention, and real-time vulnerability analysis.

Master's Degree in Cybersecurity — Oct 2026 - Oct 2027

Universidad Europea

- Specialization in system hardening, critical infrastructure protection, and security regulations

PROFESSIONAL EXPERIENCE

Software Architect | Programmer — Nov 2025 - Actualidad

Correos - Innovation & Technology Hub (Technology & Digital Transf. Department)

- High involvement in the full-stack development of corporate applications to optimize employee workflows.
- Design, architecture, and integration of solutions using the Microsoft Power Platform ecosystem (Power Apps, Power Automate, Power BI).
- Active participation in strategic software architecture decision-making and technical representation in key meetings.
- Development focused on clean code and scalability.

Other Experience (Customer Service & Operations) — 2021 - 2025

- **Lifeguard:** Infinite Pool, JCMadrid, TaCTec Tennis. (Development of attention, responsibility, and incident resolution skills under pressure).
- **Customer Service & Research:** Amamos lo que hacemos S.L., Adecco, Synergie, Tecnylabor. (Teamwork, adaptability, and communication).

HARD SKILLS

- **Programming Languages:** Java, Python, C/C++, JavaScript, SQL, HTML5, VHDL, x86.
- **Tools & Environments:** Linux, WireShark, Microsoft Power Platform.
- **Areas of Expertise:** System Architecture, Cybersecurity, Agile Development, Database Creation, Network Administration

LANGUAGES & ADDITIONAL INFO

- **Spanish**: Native
- **English**: C1 (Advanced certified by Cambridge)
- **Japanese**: A1 (Unofficial Beginner)
- **Driving Licenses:** Full, clean driving license (Cars and Motorcycles)

SOFT SKILLS

- Analytical thinking
- Complex incident resolution
- Data processing and analysis
- Organization, precision, and teamwork
